GO BANANAS /

We commend all the women that laugh in the face of audacity; the ones that would mix a million prints together before playing it safe with neutrals. And because you're one of them, you'll be pleased to know that metallics, giant Camellia flowers, and emojis are considered extremely stylish when paired together – wear with blatant pride for extra compliments.

BEAR FRUIT /

For as long as you can remember, looking glamorous and keeping toasty were never two things you could do at the same time. It was either that you resembled a member of *The Goldbergs* if you wanted to stay warm, or tried to brave the cold in sparkly cocktail frocks for when you needed to dress up. Luckily though, it's actually possible to merge both with these few tips in mind: Trade your minidresses and slouchy jumpers for chic trousers and long coats, make sure your layering's on-point, choose pieces made of the finest hides, and maintain a soaring posture.
